The Cancer Survivor's Fear First Aid Kit

Five Simple Steps to Release Your Fear of Cancer Recurrence

by Shani Fox, ND

Dr. Shani Fox, founder of a primary care practice dedicated to cancer survivors, has introduced **The Cancer Survivor's Fear First Aid Kit**, an innovative book and audio package that brings new hope to survivors struggling with fear of cancer recurrence. Persistent fear of recurrence is estimated to affect up to 96% of the 14 million cancer survivors in the US today.

"Reducing stress is an essential part of every cancer survivor's prevention program," Dr. Fox notes. "This Kit addresses a particularly common and stubborn form of stress among survivors."

The Kit offers medical practitioners a simple, clinically-proven tool to place into the hands of survivor patients, empowering them to quickly reduce stress generated by fear of recurrence. Patients using the Kit have reported relief from insomnia, anxiety and other stress-induced symptoms.

Praised for its simplicity and effectiveness, the Kit has been called "*the beacon out of the dark cold cave of worry*" by Dr. Lise Alschuler, a naturopathic physician and author who is also a breast cancer survivor.

The Cancer Survivors' Fear First Aid Kit is available direct to patients at Amazon.com. Health practitioners may contact Dr. Fox at drshani@drshanifox.com to purchase the Kit in quantity at professional pricing.
